# Conex Heritage Cabinets

Cabinets play a vital role in the image of the dental office. Easy to install and maintain, Conex Heritage cabinets can optimize the efficiency and functionality of any treatment room.

## Heritage Rear Treatment Cabinets

One of the most versatile in the Conex Heritage product line, the rear support cabinet easily adapts to two-handed and four-handed dentistry. The large pull-out is an ideal work surface for the assistant, and can be easily reached by a single practitioner.

## Heritage Center Island Consoles

The Heritage Series Centre Island is configured to incorporate the necessary equipment for open concept layouts. Items such as pass through uppers and bi-fold doors are standard. Useful drawers and pull outs are on both sides of the cabinet. The reinforced column and bi-fold doors will accommodate all x-rays on the market today.

## Heritage Side Delivery Cabinets

These Heritage Cabinets are designed to store dynamic instrumentation neatly and efficiently. Configurations for computer storage are also available.

## Heritage 12 O'clock Cabinets

Designed to serve either a single practitioner or two members of the dental team, the 12 O'clock console gives ergonomically functional access to all dynamic instrumentation. The controls are completely ambidextrous and are easily converted left to right. Computer configurations are available.

## Heritage Side Support Cabinets

Available in a variety of sizes and configurations, Heritage Side Support Cabinets provide flexible storage solutions for small equipment and instruments in the operator. Configurations for computer storage are also available.

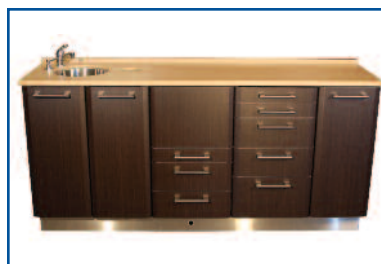

During our 35 years of service to the dental profession we have developed a keen understanding of the expectations and needs of dental clinicians and chair side staff.

Conex Cabinets are backed by our one-year warranty.

Conex Cabinets reserves the right to change specifications and make any technical alterations without notice.
