## Conex Heritage Stericenter

Known for years as the most complete answer to the challenges of sterilization, the Conex Heritage Stericenter is designed to meet the needs of busy dental practices in a compact and efficient package.

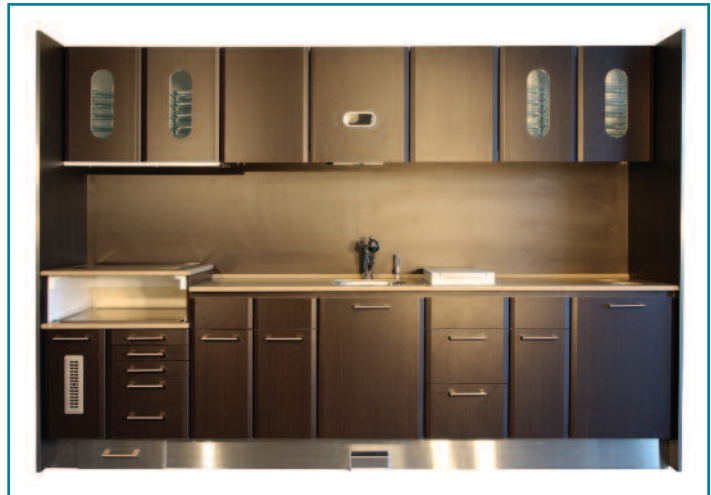

**CONEX**CABINETS

# The Most Complete Answer to the Challenges of Sterilization

Using recommended CDC guidelines for sterility assurance, the Heritage Stericenter follows the suggested processing of instruments from dirty to clean in clearly defined steps. Heritage Stericenters are modular in design and can be built to fit almost any configuration and space. You can also choose from several standard models ranging from 8 to 16 feet.

## Key features include

- Tongue and groove construction for increased structural rigidity
- Standard metal kick plates and step stool on wheels
- Built-in waste and sharps management
- Soiled instrument storage
- Clean instrument storage
- Built-in wrapping or bagging area
- Stainless steel drip pans for autoclaves
- Built-in vapor shield above autoclaves
- Full task lighting
- Finished back panels
- Brushed aluminum handles
- Plumbing fixtures and dispensers

## Available Options

- Solid surface countertops
- Solid surface sinks or under mounted stainless steel sinks
- Foot activated water controls
- Configurations for instrument washers
- Configurations for ultrasonic cleaners with built-in pre-soak containers.

During our 35 years of service to the dental profession we have developed a keen understanding of the expectations and needs of dental clinicians and chair side staff.

Conex Cabinets are backed by our one-year warranty.

Conex Cabinets reserves the right to change specifications and make any technical alterations without notice.
