# Dentech Advance Delivery Units Offer the Flexibility You Need and the Dependability You Want

When a company has sold over 65,000 delivery units, they know a little something about what dental professionals want. Dentech units are built for solid reliability, delivering instruments where you want them, when you need them, in an ergonomic manner.

## Ergonomic Design and Quality Construction

Dentech units feature seamless, aseptic control covers with integrated hangers. Units have standard metal tri-blocks and stainless steel pivot shafts with needle roller bearings in all arms for long life and dependability. Autoclavable quick-disconnect HVE and SE allow fast and easy removal and sterilization. Ergonomic design reduces hand and eye fatigue and increases productivity.

## Multiple Configurations Fit the Way You Work

Dentech units enhance productivity in any working configuration. Choose from chair, cart, and wall/cabinet-mounted designs. Surround mounts and right/left conversion cabinet mounts provide flexibility in practices with both right-handed and left-handed practitioners.

## Hygiene Unit for Two-Handed Dentistry

Specifically designed for the way hygienists practice, the Dentech Advance Hygiene Unit ergonomically delivers handpieces, syringe, and vacuum within the control head so that the hygienist can maintain proper posture while working. This prevents the stress on the body that comes from performing hygiene procedures in an operatory designed for four-handed dentistry. The hygiene unit is available in traditional chair-mount, right/left surround mount, and rear mount.

## Chair-Mounted Units

Chair-mounted units are available in traditional over-the-patient chair mount, right/left surround mount, International, International right/left surround mount, and rear-mount configurations.

## Cart-Mounted Units

Cart configurations include doctor's, assistant's, hygiene, and duo (includes both doctor's and assistant's instrumentation). Four casters provide easy mobility.

## Wall/Cabinet-Mounted Units

Dentech units can also be mounted on walls or cabinets. For maximum flexibility, an easy right/left conversion can be added. Under-counter units are also available.

Dentech Equipment is backed by Dentech's legendary service and a five-year warranty. Dentech Equipment has a 35-year track record of providing high-quality dental products. Our goal is to provide dental professionals with products that increase productivity and reduce risk of injury through sound ergonomic design.

Dentech reserves the right to change specifications and make any technical alterations without notice.
